
VOL. XXV. UKIAH, MENDOCINO CO., CAL.: FRIDAY, APRIL 19, 1901 NO. 41

INTERESTING EVENTS

RECORDED BY CORRESPONDENTS OF THE PRESS.

Personal Paragraphs From Various Sections of Mendocino County—Information Gathered by Our Busy Correspondents Throughout the County.

LAYTONVILLE, April 16.—John Curts, the promising young school teacher of the Black Rock school, all booted and spurred, riding his fiery and untamed steed, Bucephalous, took an airing last Saturday. He visited the several farms in the valley and volunteered some valuable hints on practical farming, which the farmers readily accepted. His being a practical farmer as well as a practical pedagogue, there was no alternative but to accept.

Lee Wilson, with his crew of men and the road-scraper, took to the hills on Monday to repair the Humboldt road, having finished repairing the roads leading to Ukiah.

John Burns and Ernest Walker paid Laytonville a visit Sunday and spent the day in general conversation and gentle recreation.

James McDowell, growing tired of the monotony of town life, was seen on Sunday afternoon with fishing tackle, wending his way to the purling brook to lure from its perlucid depths the speckled trout. He just went fishing.

The old stump was unoccupied last Sunday. The hot rays of the noontide sun were too convincing, and shadier retreats being more seductive.

B. Y. Gilham lost his valuable three-year-old filly last week in a rather strange way, by running a cornstalk in her side, while rolling, Mr. Gilham thinks.

Frank and Roy McAninch were in town Sunday, sauntering along the street, taking in the sights, joining in the general conversation and commenting on the general occurrences of the day, in short, taking things easy.

William Davidson came in from the Blue Rock ranch Saturday. Will tells some strange and exciting stories, one of which was a fierce combat between two mountain lions, that happened in his neighborhood one night last week. In the morning when he, with another man, came to the scene where the mortal struggle had occurred, the earth was much torn and fur was scattered about, and but a short distance away was the carcass of a huge mountain lion, measuring nine feet, stretched out stiff and cold in death, killed by his more powerful antagonist.

The principal topic of discussion now is sheep-shearing. The recent warm weather makes the boys think that the time of sheep-shearing is drawing near.

Mr. Martindale, so rumor has it, is going to start a feed yard near his place south of town, and the Vassar boys are now engaged in sawing out the order for racks and mangers and for a store house for hay and grain.

Mr. Seymore intends to build a small mill and utilize some of the water that flows through Bear Pen canon for power to run it. Mr. Seymore, who is a cabinet maker, thinks it will be just the thing and will fill the bill in connection with his vocation.

Harry Beard, the prominent young stockman, has gone to Humboldt county for a short time. Harry has one hundred head of yearlings on pasture in Eel river valley, and this is why he is gone for he likes to know that they are doing well.

What has become of Sport and the Cummings correspondent, Another? Is it possible that they are lost and the muse quite forsaken them? Q. CUMBER.

Philo. Brevities.

PHILO, April 14.—The revival being held at the Baptist church by Rev. Disher is being well attended. Mr. Disher is a very eloquent speaker and deserves much credit for his good work at this place.

James Johnson, conductor of the California Northwestern railroad, is visiting relatives at Philo this week.

Joseph Roads went to Ukiah last week on business.

Miss Rose Cook of Christine attended church at this place Sunday.

Robert Gibbons, a prominent stockbuyer of Yorkville, purchased a large band of hogs here Monday.

C. E. Beach made a flying trip to Greenwood last Thursday.

Lew Wallace, a prominent young man of Peachland, was at Philo Sunday.

Rev. Armstrong of Boonville attended the revival at the Baptist church Tuesday night.

The fishing season is open now, and many sportsman are patroling the streams to lure the speckled beauties from their lair. RONALD.

Potter Valley Items.

POTTER, April 16.—The Central school, under the instruction of Mrs. Ella Linser, gave an entertainment Friday evening last at the Grange hall, for the purpose of paying for a bell already in use, and purchasing a flag. Nearly $50 was the receipts of the evening, derived from the sale of tickets, including ice cream and cake. Some of the characters impersonated, and especially the little girls who sung, deserve especial praise.

Mrs. Donno Mewhinney of this place was recently stricken with paralysis, but we have not as yet learned her true state.

The youngest child of Jack Brower and John Day are each reported as seriously ill; while Mr. Howe is slowly recovering from his recent accident, as is also George Vann.

W. J. Mosier and son, F. L. Mosier, made a short visit here last week, coming from Ukiah, and en route for their home in Willits. VERA.

WEDDING AT POTTER.

George Raymond and Miss Katie Nichols Married Sunday Last.

Another event has transpired in our midst of no small comment. On Sunday last Miss Kate C. Nichols of this place and George Raymond met at the altar of love and pledged their vows for life. This pretty scene took place at the home of the bride's father, George Nichols, in the presence of the following witnesses: A. O. Carpenter and wife, Hale McCowen and wife, Mrs. Horton and daughter, Mrs. White, all of Ukiah, Mr. and Mrs. Shoemake of Pomo, Rev. P. G. McIver and wife, C. Harter and wife—the bride's sister—Mrs. Fanny Thomas, George Nichols, John Mewhinney, all of this place, and Miss Hargrave and Mr. Brewer, who acted as best man and lady for the occasion.

Under an arch of white roses and green trimmings, promptly at 11 o'clock, Rev. McIver spoke the words which made them man and wife. The bride was beautifully attired in a suit composed of cream albatross combined with silk to match. She wore as ornaments pink roses of nature's creation and hue, while the groom wore the conventional black. After the ceremony an elegant dinner was served.

Mrs. Raymond has grown to womanhood in our midst, and is highly esteemed by all who know her. Mr. Raymond, formally of Willits, now in the employ of Thornton & Stone as engineer of the flour mill, has made friends here, while good reports from his former home are brought to us. We believe we can safely voice the sentiment of the community in wishing them a long and happy life. A FRIEND.

Prominent Mill Owner Dead.

Jacob G. Jackson, president of the Caspar Lumber company and one of the most prominent lumber dealers of the state, passed away at the residence of his family, 911 Sutter street, at an early hour Wednesday morning. The deceased had attained the advanced age of 84 years. For the past two or three months he had been confined to his home suffering from a complication of kidney and heart troubles, from which death finally resulted. He was born in March, 1817, at Johnsbury, Vt. After having received the rudiments of a common school education he went to San Francisco and entered into partnership with A. M. Simpson in the retail lumber business. Subsequently, after the partnership had been dissolved, he engaged in shipping lumber to Australia. In 1860 he secured an interest in a mill and timber holdings at Caspar, and in 1883, having acquired entire control of the business, he incorporated the Caspar Lumber company, of which he has since been president and active manager. The deceased was an uncle of C. J. Woods, superintendent of the Caspar mill, one of the largest and most important lumber enterprises on the coast.

Mrs. D. M. Mewhinney died at the home of her son, John Mewhinney, at Potter valley Wednesday, aged 80 years 2 months and 27 days. The deceased was the widow of Samuel Mewhinney, a pioneer of Mendocino county, and one of the most estimable of women. She was a native of Ohio, and was aunt to Dr. George McCowen, County Clerk Hale McCowen, Mrs. L. Horton and Mrs. A. O. Carpenter. The primal cause of her decease is said to have been paralysis. She was buried from the family residence at 10 o'clock this morning. Her sorrowing relatives have the sympathy of their numerous friends and acquaintances in this county.

Judge Mannon is in San Francisco as a delegate to the annual session of the grand commandery, Knights-Templar.

I. Y. Griffits of Potter was seriously injured in a runaway accident Wednesday. He was badly cut about the head.

V. A. Blosser, formerly of Willits but now of San Francisco, is spending a few days with his relatives in Little Lake valley.

Mrs. Carolina Linser and daughters, Anna and Hulda, of Bell springs returned Sunday from an extended visit to relatives in Minnesota.

J. W. Cheney, manager of the new sample rooms at Calpella, was in town yesterday on business connected with the new enterprise.

G. Raymond and Miss Kate H. Nicholls, both of Potter valley, were married at the residence of the bride's parents Sunday last by Rev. McIver.

Dr. and Mrs. Thompson of Boonville were called to this week Saturday last by the serious illness of their son Herbert, who is suffering with pneumonia.

John Malar, a hardware dealer in Santa Rosa, and Miss Kittie Lewis, formerly of this city, but now of Santa Rosa, were married at that place on the 6th inst.

The Mason hardware company is fixing up its store in the postoffice building in excellent style. It will be one of the most modern stores in northern California.

John Dunnigan was brought down to the local hospital the early part of the week for injuries received by a falling rock while working for the railroad above Calpella.

Frank Morse will move his electric plant to Coquille City, Oregon, in a few days, and he will be accompanied by Allan Hart, who will assist in running the plant.

The Willits band gave a dance Saturday evening last and a concert Sunday afternoon. Both events were highly appreciated by the residents of Little Lake valley.

T. J. Gibson, brother-in-law of Zack Simonsen of Willits, went down to Santa Rosa Monday on business. Mr. Gibson was a United States soldier and served during the siege of Manila.

The teachers of this city are preparing a concert for the entertainment of the pedagogs during institute week. It will be a high-grade affair and may be looked forward to with pleasant anticipation.

Sam Kenyon of the Castle bar left for San Francisco yesterday as a witness in the case of the people vs Glaze, who is accused of having murdered his partner Trewella in the Windsor hotel February last.

Attorney J. L. McNab and wife visited Lakeport the early part of the week. Mr. McNab went over on the Bank of Mendocino cases, which were last week transferred to Lake county. He left early Tuesday morning.

Mrs. Irene M. Reeves, who was formerly Miss Irene Doyle of this county, won her suit in the superior court of San Francisco. She sued to be restored to her position as a teacher holding a $140 a month position, and Judge Hunt decided in her favor.

John Burgess and Henry Hopper entertained a party of their friends at their Cold creek ranch Sunday last. An elegant dinner was provided, and there was music and other pastoral pleasures. Mr. Burgess celebrates the advent of spring annually by entertaining his friends.

Dr. David Starr Jordan addressed a fair-sized audience at Mason's lyceum Tuesday evening. The attendance was representative of the culture of the city and the discourse was attentively listened to with the most evident pleasure. Rev. Gillies, who has been the mover and promoter of the high-class lectures Ukiah has enjoyed during the winter months, is certainly deserving of the thanks of the public. While the events have not been successful from a financial point of view, they have afforded much pleasurable and profitable entertainment to the educated of the city.

YOUNG GIRL SUICIDES

THE SAD DEATH OF LITTLE HAZEL BEILBY.

The Bank Case at Lakeport—Lafe Van Dusen's Hard Luck—C. Warren Blake Skips Out From Crescent City—Warren is Bad.

Hazel Beilby, a girl aged about 13 years, committed suicide Wednesday evening between the hours of 6 and 7 by swallowing an ounce of carbolic acid.

The act was done at the home of the parents of the deceased, on the old John Campbell place two and one-half miles west of Low Gap.

The girl never spoke after the fatal acid was swallowed, and death resulted about 9 o'clock on the evening of the date stated.

Her parents would not have known of the rash act had it not been for the fact that the girl, in her extremity, pointed to the fatal vial. A messenger was then dispatched to this city for medical assistance, and everything was done by parents and neighbors to relieve the sufferings of the unfortunate girl.

Dr. Stout and Coroner John Taylor went out accompanied by J. H. Carothers. An autopsy was held by Mr. Stout, who stated that the deceased had taken enough of the liquid to kill three or four persons.

A verdict was rendered in accordance with the facts as above stated.

The Bank Case.

The suit on behalf of certain stockholders of the Bank of Mendocino to have a receiver appointed was up before Judge Crump at Lakeport Tuesday. McNab & Hirsch represented the bank and its directors; McGarvey & Bledsoe, certain stockholders, as did Seawell & Pemberton. T. L. Carothers appeared for William Heeser. A demurrer to the complaint of the plaintiff was interposed, and the defendants contended in the complaint that there is no statute in California which permits the appointment of a receiver. The case is a noted one, and has been twice submitted to the superior court of this county, and on both these occasions the demurrer on the part of the bank and its directors has been sustained. The case was argued by the attorneys Tuesday afternoon and evening and submitted. Judge Crump at the hearing stated that it was quite useless to discuss the qualifications of any candidate for the receivership, as the question as to whether or not one would be appointed had yet to be settled.

Blake Does Them Up.

C. Warren Blake is again in trouble, according to an exchange from Crescent City. It will be remembered that a year or so ago Blake skipped from this city with a bicycle borrowed from Kent & Young. He was finally arrested and brought back to this city. He pleaded guilty to the charge of petty larceny and was sentenced to serve a term in the county jail. He escaped and went to Del Norte county. Deputy Sheriff Ornbaun went to Crescent City to recover the prisoner. The people of that village were so infatuated with the musician that they raised a purse to pay his fine. Now there are mourners in the northern end of the state.

Fire Tuesday Morning.

Lafe Van Dusen has been up against it again. A fire was discovered in his cottage on Clay street Tuesday morning. The dwelling was occupied by Mr. and Mrs. J. L. McNab, who were absent at the time the fire occurred. The building was not insured, but Mr. McNab was fortunate enough to have his furniture protected by a policy of $600. The damage to the furniture was amply covered, but Mr. Van Dusen will be out several hundred dollars.

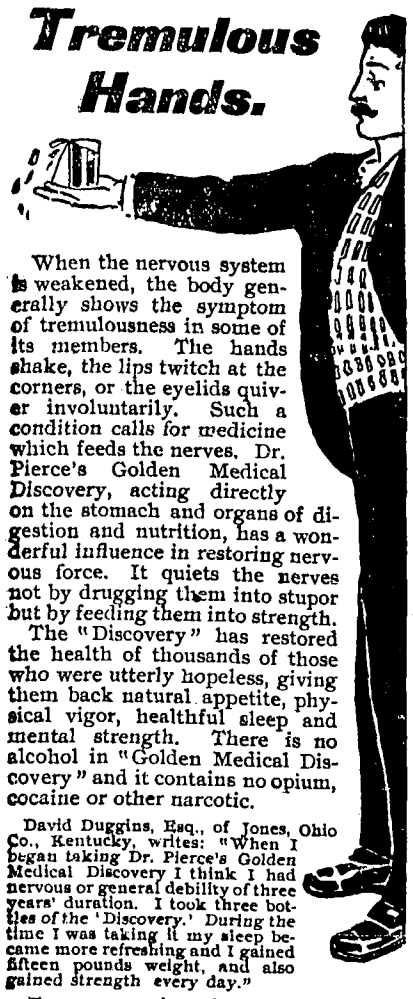
Crabtree in Jail.

Robert Crabtree was arrested near Bald mountain, north of Covelo, Sunday last by Deputy Sheriff Ornbaun. Crabtree is charged with having been concerned in the stealing of a mule from P. A. Deuell of Round valley some time ago, and is alleged to be a member of a coterie of hard citizens of that section of the country.

The patrons of the Rock Tree school tendered the teacher, Mrs. S. W. Haskett, a pleasant surprise April Fool's day in the shape of a picnic. A most enjoyable time was had by the parents, children and teacher, and in this way showed their appreciation of her earnest work in the school.

Dowlin Chilson was thrown from a runaway horse yesterday and was painfully injured. The boy was aged about 16, and was unconscious for some time.

Tremulous Hands.



When the nervous system is weakened, the body generally shows the symptom of tremulousness in some of its members. The hands shake, the lips twitch at the corners, or the eyelids quiver involuntarily. Such a condition calls for medicine which feeds the nerves. Dr. Pierce's Golden Medical Discovery, acting directly on the stomach and organs of digestion and nutrition, has a wonderful influence in restoring nervous force. It quiets the nerves not by drugging them into stupor but by feeding them into strength.

The "Discovery" has restored the health of thousands of those who were utterly hopeless, giving them back natural appetite, physical vigor, healthful sleep and mental strength. There is no alcohol in "Golden Medical Discovery" and it contains no opium, cocaine or other narcotic.

David Duggins, Esq., of Jones, Ohio Co., Kentucky, writes: "When I began taking Dr. Pierce's Golden Medical Discovery I think I had nervous or general debility of three years' duration. I took three bottles of the 'Discovery.' During the time I was taking it my sleep became more refreshing and I gained fifteen pounds weight, and also gained strength every day."

Free, on receipt of stamps to pay expense of mailing *only*, Dr. Pierce's Medical Adviser, 1008 pages. Send 21 one-cent stamps for book in paper covers, or 31 stamps in cloth binding to Dr. R. V. Pierce, Buffalo, N. Y.

THE TROUBLE IN CHINA.

A Peking dispatch of April 14 says that Koumara Youtara, the Japanese minister, called upon Prince Ching, and pointed out to him that the emperor's return was of the highest importance as affecting the maintenance of the integrity of the Chinese empire. He also urged that 20,000 Chinese soldiers be sent to Manchuria, as it was not right that the task of quelling disturbances there should be thrown upon the shoulders of Russia alone. The Japanese continue to make preparations as if they expected war with Russia.

A Peking dispatch of April 11 says that F. M. McWade, United States consul at Canton, reported that 1000 deaths from the plague had occurred during the past six weeks, and that there were 13 cases of smallpox on board the United States monitor Monterey. Only one death had resulted on the Monterey, and the other cases of smallpox were progressing favorably.

A dispatch received at Berlin from Peking says that a robber band of four Americans and four Chinese was recently captured by a German outpost at Tungkiaofu.

SOUTH AFRICAN WAR.

A dispatch from Lord Kitchener dated April 16 says that Colonel Sir Henry Rawlinson's column captured a Boer laager at Klocksdorp. Six Boers were killed, ten wounded and 23 taken prisoners. A 12-pounder, one pompon complete and two ammunition wagons with ammunition were captured. Colonel Plumer captured a field cornet and 18 men, with their wagons and 18 rifles. During Colonel Pilcher's operations in Orange River Colony seven Boers were killed.

A Bloemfontein dispatch of April 14 says it is reported that the health of former President Steyn has broken down. It is also said that he has advised all Boers on commando to surrender immediately.

A dispatch from Lord Kitchener, dated April 11, says General Monro's mounted infantry, after two hours' hard fighting, captured 80 prisoners, including Commandant Bresla, at Lietfindeyue, near Dewetsdorp.

The British war office has issued the following special order: "Any officer or soldier who, when in the presence of the enemy, displays a white flag or other token of surrender, will be tried by general court martial."

A Melbourne dispatch states that the federal cabinet decided that it was unable to recommend the suggestion of Mr. Chamberlain, the colonial secretary, that the Boer prisoners be sent to Tasmania.

WASHINGTON NOTES.

Information comes to the war department that intoxication and riotous conduct among private soldiers have been alarmingly increased by the operation of the law abolishing the sale of beer in post canteens. There has been a large increase in the number of saloons in the neighborhood of all army posts, and the soldiers, instead of drinking light beers and wines such as were sold in the post canteens, drink cheap whisky and other heavy liquors, and are led into gambling and other forms of vice which could not exist within the limits of a military post.

The comptroller has disallowed a claim of the chief quartermaster for money expended in entertaining foreign military attaches accompanying the army into the field during the war in Cuba. In his decision the comptroller says "there is no provision of law in any of the specific or general appropriations for the army which authorizes the military authorities to invite foreign attaches to be the guests of the government in time of war."

King Oscar of Norway and Sweden has consented to be arbitrator on the Samoan claims of the United States, Great Britain and Germany.

The monthly statement of the exports of home products issued by the bureau of statistics shows that during March the exports were as follows, the comparisons being made with March, 1900: Breadstuffs $21,158,140, increase $4,500,000; cattle and hogs $2,978,616, increase $725,000; provisions $16,658,257, increase $3,160,000; cotton $26,817,333, decrease $7,000,000; mineral oils $5,530,000, decrease $1,140,000. Total $72,592,486, net increase $230,000. Total for nine months $671,712,814, showing an increase of $80,893,000.

CUBAN CONVENTION.

Gomez Opposed to Americans—To Send a Commission to Washington.

At a recent meeting of the Cuban constitutional convention at Havana the whole time was taken up by Juan Gualberto Gomez and General Sanguilly, who made impassioned speeches, the former against the Platt amendment and the latter in its favor. Gomez said that the black blood in his veins made him opposed to the Americans, intimating that their treatment of his race stamped them as unfriendly to the negro. "I would rather be under the sovereignty of Spain," he exclaimed, "than under that of the United States. The Platt amendment endangers the independence of Cuba. It means the predominance of American influence. I would rather die of grief or leave the country should it be accepted."

At a later meeting the convention resolved to send a commission to Washington to secure the best possible agreement with the president.

Federal Quarantine Officer Dr. John J. Kinyoun has been transferred to St. Paul, Minn., and Dr. Carmichael, federal quarantine officer at Honolulu, has been appointed his successor at San Francisco. The change will take effect on May 1.

The first box of California cherries for the season of 1901 sold at Chicago for $12. This box contained ten pounds of fruit.

Hunt Bros.' big canning plant at Haywards, Cal., was destroyed by fire, which swept the two acres of wooden buildings to the ground. Valuable machinery and $70,000 worth of tinplate, stored for the opening of work on May 1, were destroyed. The loss is $125,000, which is practically covered by insurance. The cannery will be rebuilt.

A dispatch from Rome says that at the consistory Archbishop Martinelli, the papal delegate in the United States, was preconized a cardinal. The pope, in his allocution, deplores the fact that several states, widely separated, have entered into open war against religion. The campaign is directed against the religious congregations in order to destroy them gradually.

The death at Phoenix, Ariz., of Mrs. Robert Iche reveals the fact that unconcealed and unguarded in the house was great wealth in jewels and precious stones. The husband of the woman is in jail awaiting trial for insanity, and the sheriff took charge of the jewelry, the estimated value of which is not less than $50,000. Mrs. Iche has a sister in Birmingham, England, the wife of a wealthy coal operator.

At a meeting of clergymen in New York called to discuss the passion of society women for gambling, it was stated that the homes of the rich are practically childless. In the mile of palaces on Fifth avenue, between Fifty-seventh and Seventy-second streets, there are only 15 children under 12 years of age. Among the residents of that section of millionaires' row are John Jacob Astor, George and Howard Gould, Ogden Mills, William C. Whitney, Clarence Bentley, E. J. Berwind, Charles T. Yerkes and James A. Burden.

O. P. Austin, chief of the bureau of statistics at Washington, proposes that American merchants and manufacturers shall unite in carrying samples right to the doors of foreign customers in a great floating exposition. He proposes that several ships be chartered and exhibits of the different wares installed, each exhibitor to be allotted space in proportion to the amount he subscribes. The fleet would visit South America, the ports of China and Japan, possibly Australia, the ports of the Indian ocean and thence home by way of the Suez canal and Mediterranean, taking in the principal ports of Europe and consuming about two years.

Tanbark Lands, Orchard and Sawmill Site For Sale at a Sacrifice.

In Anderson valley, Mendocino county, 600 acres of the choicest redwood and tanoak lands, all easily accessible to roads, none culled; 20 acres improved; house, barn and orchard of 800 trees. A LETTER OF THANKS.

Portland, Or., Sept. 7, 1900.

Mr. O. F. Woodward—Dear Sir: For the past two years I have been troubled greatly with a redness of my skin, and a great number of pimples on my face. I tried almost everything under the sun to rid myself of these disorders, but nothing did me any good until I got a package of Lane's Tea. I have used it for two weeks steady, and my complexion is as clear as a mirror and my skin as white as snow.

OIL! OIL! OIL!

New Enterprise in Mendocino County.

The oil fields of California are offering opportunities for investment that cannot be surpassed. Wells are being sunk daily that are putting thousands into the pockets of investors by the increase in the value of stocks alone. Professor LeConte of the University of California, in his work on geology, states that the oil field in California extends as far north along the coast as Cape Mendocino. Professor LeConte also says that the best indication of high-grade oil deposits is the existence of gas and burning springs.

The Orr's Hot Springs Oil Company has been formed for the purpose of sinking an oil well on the Orr's Hot Springs property, 15 miles northwest of Ukiah, in Mendocino county. On this land, gas issues from the crevices of the rocks, and burns continuously with a steady flame; there are many springs bubbling up from oil sand that will burn when lighted with a match; sulphur springs; brown and green scum, forming on pools of fresh water, oily to the touch; walls of sandstone, seamed with the rocky indications of oil deposits; and oily substances issuing from the ground in many places.

The Directors and officers of the Orr's Hot Springs Oil Company are as follows: J. L. Orr, President; W. J. McClellan, Vice-President; A. J. Bledsoe, Secretary; S. M. Orr, Treasurer, and Robert McKinley.

This company is capitalized for $200,000, divided into 200,000 shares at a par value of $1 each, and of this amount 40,000 shares will be placed on the market at once for development purposes, at 25 cents per share. Buy now. Get in on the ground floor. As operations progress, the market price of this stock will advance to 50 cents per share within a short time. The Directors will make an earnest effort to get machinery on the ground, ready to bore, within 90 days.

The company has employed R. L. Crane as its agent for the sale of stock in Ukiah and vicinity, and he is authorized to take orders for stock, receive money, and deliver shares. Other agents are wanted in other localities.

Game Laws.

The game law was one of the most noteworthy features of the recent legislature. It was drafted by California sportsmen and so constructed that few of the many evils which have harrassed the men of the gun and rod remain unremedied. The pot hunter and his equally unprincipalled confrere, the men who shoot in season and out will be things of the past if the new law is properly enforced. Trout and other game fish are so dealt with in the new scheme of things that they will be protected during the spawning season, and birds and deer will have time to nourish their young until they are game enough to care for themselves.

The new measure repeals all former game laws and all county regulations in existence. County governing bodies may make the new regulations more stringent, but not less so. Among the strongest points of the new measure the following are worthiest of mention. Open season on male deer, August 1 to October 1; doves and tree squirrels, August 1 to February 1; quail, rail, ibis, curlew and plover, October 1 to February 1; trout, April 1 to November 1; black bass, July 1 to January 1.

These practices are prohibited: Buying or selling deer, deer meat, ibis, quail and plover, killing more than three deer in one season; killing or having in possession in one day more than 26 quail, snipe, curlew or ibis, or 50 duck or doves or 20 rail; killing or pursuing any game protected by law between one-half hour after sundown and one-half hour before sunrise. Restrictions on common carriers, such as prohibiting their receiving from one person in one day more than the legal number of birds allowed by the bag limit and requiring them to label the same with the name and residence of the hunter shipping the game.

A Chance for Ambitious Boys.

Congressman Frank L. Coombs writes that a competitive examination will be held at San Rafael commencing at 9 a. m. June 1, for appointment to the United States naval academy at Annapolis, under the supervision of a board of examiners selected for that purpose. All candidates must have been, for at least two years, actual and bona fide residents of the district, and at the time of admission to the academy between the ages of 15 and 20. The regulations adopted by the secretary of the navy for the examination of a cadet for admission to the academy will be enforced at the competitive examination. It will be necessary to present a certificate from some physician of standing, evidencing physical requirements, in order to entitle the candidate to compete. Aside from the usual physical examination, attention will also be paid to the stature of the candidate, and no one manifestly under size for his age will be received at the academy. In the case of doubt about the physical condition of the candidate, any marked deviation from the usual standard of height or weight will add materially to the consideration for rejection. Five feet will be the minimum height for the candidate. Candidates will be examined mentally by the academic board in reading, writing, spelling, arithmetic, geography, English grammar, United States history, world's history, algebra through quadratic equations, and plane geometry—five books of Chauvenet's geometry, or an equivalent. Deficiency in any one of these subjects may be sufficient to insure the rejection of the candidate. Now, here is an opportunity for a Mendocino county boy to enter the service of Uncle Sam.

Wanted—A woman to do cooking and housework and work in a small family; good wages to the right person. Inquire at Grand hotel at 3 p. m. Saturday.

Summer Session of the University of California.

There will be a truly remarkable array of scholars in the faculty of the approaching summer session of the University of California, from June 27 to August 7. The summer school, open without examination to all applicants of good character and intelligence, will number in its instructing staff thirty-five or more members of the regular faculty, including, among others, Professors Bacon, Hilgard, Wickson, Clapp, Gayley, Merrill, Margolis, Loughridge, Page, Jaffa, and Magee, and in addition John Dewey, professor of philosophy in the University of Chicago; H. Morse Stephens, professor of modern European and English history at Cornell university; Barrett Wendell, professor of English in Harvard university; James E. Russell, dean of teachers' college of Columbia university; Liberty Hyde Bailey, professor of horticulture at Cornell; Ewald Flugel, professor of English philology at Stanford; Ellwood Cubberley, associate professor of education in the same institution, and James M. Wilson, irrigation expert of the United States department of agriculture. Courses will be offered in philosophy, education, history and political science, semitic, Greek, latin, English, Spanish, mathematics, physics, astronomy, chemistry, botany, mineralogy, physical culture, agriculture, horticulture, and irrigation. All the facilities of the library, laboratories and museums will be available. Many of the courses are planned particularly to meet the needs of teachers, to acquaint them with modern methods, and to freshen their inspiration. Particularly valuable are the opportunities for training in pedagogy, nature study, laboratory methods and physical culture.

Inducing Immigration.

At a meeting called by the chamber of commerce, fruit-growers' convention, municipal league and other commercial bodies of San Francisco to deal with the large number of colonists and visitors that will arrive here, the following resolutions were adopted:

Whereas, Through the action of the transportation companies in providing for the introduction of desirable immigrants into the state, a welcome emergency is about to be created, and we are suddenly to enjoy unusual opportunities for settling our vacant land, and generally increasing the prosperity of the state; therefore, be it

Resolved, That a permanent organization, known as the California colony association, be formed for the purpose of disseminating information regarding available lands and labor; to cooperate with all other organizations of a kindred character throughout the state, and to perform all other acts that will further the object of the association.

L. B. Lenau, a Swede of gigantic stature, held at the Seattle county jail for petty larceny, died in his cell as the result of injuries sustained while in an apopleptic fit and from a beating received at the hands of fellow prisoners. His outcries were at first thought to be caused by ill temper, and as a result of that belief the man was terribly beaten by two other prisoners, sent by the night jailor to subdue him. His body was a horrible sight, the face being cut, discolored by bruises and swollen, and his nose broken. At the corner's investigation it was found that Lenau's neck was dislocated, and that his death was due to a fall and the beating administered in trying to subdue him.

CRIMES AND ACCIDENTS.

Fire was discovered in the United States army transport Rawlins lying at Brooklyn, and on the arrival of the fire engines thousands of gallons of water were pumped into her hold until she sank and now lies in 30 feet of water. The property loss will not exceed $50,000. It will cost about $20,000 more to pump the Rawlins out and raise her.

Temporarily crazed, it is believed, by the reading of "The Fate of Bluebeard's Wife," Henry Devere, aged 20 years, of Louisville, cut the throat of Bertha Devere, his 19-year-old bride of two months. After killing his wife he cut his own throat and died almost instantly. In his dresser was found the novel, in which the killing of a wife by her husband is detailed at some length.

While a light engine on the coast road was racing down the track toward Santa Barbara to connect with a waiting train, it left the rails at a dangerous curve and toppled over a 50-foot embankment, resulting in the death of Engineer Elmer Balloo and Fireman Perry.

In a fierce fight on the mountains near Lilly, Pa., between a band of gypsies and a posse of officers one gypsy man was killed outright and a gypsy woman shot through the shoulder. Ex-Division Foreman Titler of Galitzin was wounded in the mouth and Frank Coons, his assistant, was shot through the bowels, and will die. The officers were attempting to arrest the gypsies on charges of stealing.

A Whitesburg (Ky.) dispatch says that two men of a sheriff's posse were killed and one wounded in a fight with a gang of outlaws, who cruelly tortured Mrs. Jemima Hail, an aged widow, and after securing her money murdered her and her son and burned her body in the hut in which she lived. The fight occurred on a mountain top, and more than 300 rifle and revolver shots were exchanged. The desperadoes escaped, although one was wounded.

Albert Skoog, a Swede, 35 years old, pronounced by the United States secret service to be the most expert counterfeiter alive, and who is wanted by the government authorities in this country and in Sweden, was captured in New York. In March, 1897, he escaped from the penitentiary at Joliet, Ills., while serving a sentence there for making and passing counterfeit $20 bills. After his escape he immediately went to Sweden, where he succeeded in passing a large number of 100-kroner notes. As a result of the arrest Chief Hazen of the United States secret service has gained possession of one of the most complete counterfeiting plants ever found. A confederate of Skoog's, named Emile Mobert, was also arrested. Skook is a member of a wealthy family in Stockholm.

IN THE PHILIPPINES.

A dispatch from Capiz, island of Panay, dated April 14, says the people of that section flocked on foot and in carriages to meet the members of the United States Philippine commission and to attend the explanation of the principles upon which the provincial government is to be established. Representatives of the natives assert that the federalist movement, combined with the liberality of the laws being enacted by the commission, has caused the recent rapid pacification of the northern part of the island. The province of Capiz has suffered greatly from worm, rinderpest and locust plagues, and popular sentiment is in favor of peace and civil government.

A Manila dispatch dated April 18 says the trial of Sergeant Meston, the first case in the commissary scandals, began with the startling disclosures expected. Two witnesses testified that quantities of flour were taken from a government warehouse and sold by three commissary sergeants and two others, who divided the proceeds. Finnick, the proprietor of an American bakery, was incriminated, and other business men were also involved.

Colonel Veillia, Aguinaldo's chief of staff, and Dr. Barcelona, ex-treasurer of the Philippine "government," captured at the same time General Funston made prisoner of their chief, have been liberated.

General Martin Delgado, the chief insurgent commander in the island of Panay until his surrender in January, has been appointed governor of the province of Iloilo, created by the United States Philippine commission. His salary will be $3000 in gold, the highest salary paid any provincial governor. The appointment is a popular one. The province has a population estimated at about 1,000,000.

General MacArthur sends the following dispatch from Manila, dated April 11: "Colonel Acre surrendered at Castillejos yesterday with 335 soldiers, 12 officers and arms. This and the surrender of Colonel Alva at Poringo, on April 8, with 13 officers, 394 men and 92 rifles, frees Bataan, Zambales province."

John Bond, a Klondike miner, while taking in the sights of San Francisco, was robbed in a tenderloin saloon of about 104 ounces of gold dust, valued at between $1400 and $1500, which he carried in a canvas bag.

The body of Jacob F. Scherer, with a bullet-hole in the temple and a revolver lying near, was found on the beach near the Olympic club pier at San Francisco. From a letter found on the body it was learned that he was a member of the Journeymen Stonecutters' association of San Francisco, and that his wife lives in Kansas City.

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Debts Never Die

When you die your salary stops. Your earning power ceases.

But your debts don't die—they become liabilities against your estate.

You can, however, make your debts die with you—by means of life assurance.

The Equitable Life is the best and strongest in the world.
